

'W435'
Alexia

"This dress represents the Alexia brand at its best as the gown flatters all figures and the beading around the middle gives the illusion of a much smaller waist. The real wow-factor element of this dress has to be the delicate floral lace underneath the beaded top layer; it's simply stunning!"

Jenna, Alexia

Embellishment

It's all in the detail! The finest embroidery, lace and beading...
